

Activity: Pin the Part on the Bike

Target Group: grades 1-4

Recommended Size of group: 20-60 children

Time Requirement: approximately 15 minutes

Supplies Needed: Poster-sized picture of a bike with minimal parts- can be drawn by children or provided by facilitator

Space Requirements: a large open space and a place to hang the poster

Safety Considerations: ensure the poster is at a proper height for children to reach the picture of the bicycle.

Rules:

1. A poster of a bike is put up on the wall
2. Children are randomly given paper parts that fit on the poster bike
3. With the guidance of other children in the class, those with the bike parts go one at a time to attach the part in the proper spot
4. Once all the pieces are put on the bike the picture is examined for accuracy.
5. If not correct children try to point out the problem and fix it.

Learning Outcomes: Children will learn the parts and functions of the important pieces of a bike such as brakes, reflectors, lights, bell or horn etc .
